Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16,17,19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Matsuno-5766189.

Matsuno discloses a clip device having a tube 8, a clip 2; the clip has a hole through which a distal bulged portion 3a,3b,3c of a manipulating wire extends. When in the configuration as shown in fig. 1c, the width of the bulged portion, which would be equal to the inside diameter of tube portion 4, would be larger than the hole in the proximal end of the clip. When sufficient proximal tension is applied to the wire, the hook portion 3a-3c flexes open and allows the clip to release from the wire. The manipulating member is 7b.

Allowable Subject Matter

Claims 21-25 and 35-37 are allowed.

Claim 18 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not disclose or suggest a ligating apparatus having a tube with a manipulating wire therein and at least two clips each with a

Art Unit: 3731

base, wherein the clips are in series, and the clips have a hole through which the wire extends, the wire having a bulged portion larger than the hole.

Response to Arguments

Applicant's arguments filed 12-27-2005 have been fully considered but they are not persuasive.

The hole through which the wire tip, extends does extend in the advancing direction in that the hole is oval and the longest extent does extend along the advancing direction. In other words the hole is longer than it is high.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Glenn K. Dawson whose telephone number is 571-272-4694. The examiner can normally be reached on M-Th 7:30-5:00.
